## (二) Postcards Between Friends

Hi, Betty,

How are you doing? The weather here in Taiwan is cold. What about yours?

In fact, I'm writing this postcard to ask for your advice. My best friend was Jessy and I felt strange because she stopped playing with me or chatting with me. I felt hurt and I don't know why she did this to me. Next week is Jessy's birthday, we used to hang out at the mall after her birthday party. But, she invited everyone but me to her birthday party. The moment she skipped me was like she was cutting my heart with a sharp knife. I didn't say anything because I always want to look strong. But, in fact, that bad feeling is still bothering me.

Jessy was a best friend of mine. How could she skip me without saying anything? What should I do now?

BTW, Christmas is coming, wish you a good day. Merry Christmas!

Best wishes,  
Sandy.

There are four seasons in Matsu: winters are cold and wet, spring and summer are foggy, and it's windy and cool in autumn. The temperature is the coldest between December and February and the highest in July and August.

The Matsu Islands are located to northwest of Taiwan. If you have a chance to go there, you must visit Matsu Blue Tears.

Blue Tears is the name of a wonderful sight. Special algae cause Matsu's Blue Tears. When sea waves hit the algae, they cause a glowing blue light. We can see this type of beautiful Matsu Blue Tears from May to September every year. But we can only see it if we are lucky. To get more chances of seeing Blue Tears at night, we must try our best to stop the light pollution. Because light pollution may turn the sight into **a damp squib**. Then, sadly, you can't see the beautiful sight.

However, no light can make the trip dangerous. To make sure you're safe, please wear life jackets all the way and never play around. Follow the tips. If you are lucky enough, you will see these magical blue tears.
